**FUN FACT:**

Our roof pitch is designed to always be at a perfect 45° angle, which means the total height of the bed is different for each size.

# THE OLIVER

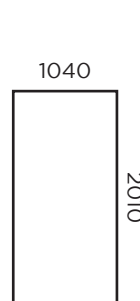

Inspired by minimalist design, our vision for This Little House is to provide the perfect blank canvas for children to express their individual style and ignite their imagination. Each house provides an enticing sleeping space that doubles as a unique play area, and makes the perfect addition to a playroom or bedroom!

Oliver is the perfect little sibling to our original house bed Addison, and has been specifically designed with small spaces in mind. With a playful nod to our original design, the Oliver stands with a house shaped headboard and a seamlessly finished footer, ready to welcome your little love to the land of nod.

All beds come with slats.
